

American River Flood Control District

Designation of Surplus Equipment

Staff Report

Discussion:

District staff seeks to designate as surplus the 1996 John Deere 5300 Tractor. This piece of equipment no longer meets California air quality standards and has reached the end of its serviceable life. The disposal of this item will free up valuable space in the warehouse and make room for its replacement.

In 2020, the District budgeted for the replacement of the JD 5300. The District recently took delivery of a new JD 5075E Tractor to replace the JD 5300. The JD 5300 is no longer needed and is now suitable to be released for sale as surplus.

Recommendation:

The General Manager recommends that the Board of Trustees designate the JD 5300 as surplus and direct staff to sell or dispose of it per the guidelines in the Surplus Equipment Policy.
