

General Manager's Meeting Summary February 2022

2/11: American River Flood Control District Board of Trustees meeting. The Board met in regular session. The agenda items included the General Manager's priorities for 2022, declaration of surplus equipment for the 1995 GMC Pickup, and information items on the proposals for re-districting of the District's elections and Native American land acknowledgements.

2/17: River Park Neighborhood Association Board of Directors meeting. I attended this meeting to hear a presentation from the U.S. Army Corps of Engineers on the upcoming American River bank protection project. The Corps described the work to armor the south bank of the American River to prevent erosion of the levee. The work will include removal of the existing tree canopy and vegetation understory, installing the blanket of rock revetment, and then adding topsoil and vegetation plantings to re-establish the tree canopy. The Corps also discussed the impacts to the neighborhood including, pedestrian access closures, truck traffic haul routes, noise, and air quality.
